

The list is in!

We teamed up with the Pantone Color Institute to bring you an inspiration board of the top 10 shades set to dominate your look (and your life this season). A bonus? The palette is expressed through spring's hottest styles, from the most sought-after sandals to the mani worth mastering. You can thank us later

SCUBA BLUE

Aloha! Inspired by the beach vacations that it calls to mind, this lively tone, much like Aquamarine, just might give you the urge to book a flight to paradise.

GET AWAY FROM IT ALL

Our obsession with Uruguay's new Bahia Vik Jose Ignacio hotel goes way beyond its hip interiors, which are awash in shades of blue and filled with canvases and sculptures by local artists. Situated near Punta del Este, an area that's long been the stomping ground of the international jet set, the boho-chic beach hotel offers individual bungalows tucked into sandy dunes with sweeping views of the sparkling South

Atlantic. While you're there, try your hand at kite surfing in the beginner-friendly shallow waters of Laguna Garzón, go for a horseback ride at the Estancia Vik stables, and indulge in an authentic Uruguayan asado. #NoFilter required here (bahiavik.com for rates).
